## **DETAILED ACTION**

### ***Claim Objections***

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

2. When Applicants added new claims 49-62, claim number 58 was inadvertently skipped; therefore, misnumbered claims 59-62 have been renumbered as 58-61, respectively.

3. Claim 58 is objected to because of the following informalities: The word "salt" is misspelled. Appropriate correction is required.

4. Claim 59 is objected to because of the following informalities: A typographical error is found in the claim. The claim should depend from claim 50 and not from claim 60. Appropriate correction is required.

5. Claims 49-57 are objected to because of the following informalities: Numbers associated with "R" should be subscripts instead of superscripts. Appropriate correction is required.

### ***Priority***

6. An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence(s) of the

Art Unit: 1648

specification or in an application data sheet by identifying the prior application by application number (37 CFR 1.78(a)(2) and (a)(5)). If the prior application is a non-provisional application, the specific reference must also include the relationship (i.e., continuation, divisional, or continuation-in-part) between the applications except when the reference is to a prior application of a CPA assigned the same application number.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 37-48 were rejected for obviousness-type double patenting over U.S. Patent 6,303,347 in the previous office action. In response, Applicants cancel the rejected claims and add new claims 49-61. Newly added claims do not, however, overcome the rejection, as explained below.

8. Claims 49-61 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-25 and 27 of U.S. Patent No. 6,303,347. Although the conflicting claims are not identical, they are not patentably

Art Unit: 1648

distinct from each other because in the patent, Applicants claimed a compound with several Markush groups. In the instant application, the same applicants claim a compound that falls within the Markush groups of the issued patent.

9. No claim is allowed.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

11. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hankyel T. Park whose telephone number is 571-272-0907. The examiner can normally be reached on 7:30 a.m. -4:00 p.m. Mon-Fri.
